**T**he Text book of "Applied Psychology" is designed according to the revised new syllabus of INC, New Delhi for B.Sc. Nursing course, First semester of first year. The Text has been written keeping in view of the new curriculum framed by INC. Theoretical and clinical content have been presented in an integrated approach with an easy and understandable language. Various case scenarios and practical examples, presented in this text will encourage critical thinking and discussions in nursing students. Stress management, decision making, and behaviour based on understanding past behaviour to better predict future behaviour are elaborately explained. This text comprises seven units.

#### **Salient Features:**

- Keywords are highlighted in every chapter, which provides basic understanding of the key concepts.
- Appropriate diagrams have been included, which will help the students in their learning.
- Comprehensive coverage of all the necessary sub topics.
- Text book content is written in lucid language to able the students easy to understand.
- Reviewed the subject matter thoroughly by experts.
- Overview is given at the end of every chapter to have a glance outlook of the topic.
- Review questions, Fill in the blanks, MCQs and Match the following are covered at the end of each unit for self evaluation.

Enriched the text with recent updates in the subject, definitely this book is a good life-long companion for learning students of Nursing to meet their requirement in higher level of education.
