## Report of Leprosy Case detection Training

**Students:** BSc Nursing 4<sup>th</sup> Year, PBBSc Nursing 1<sup>st</sup> Year, MSc Nursing 1<sup>st</sup> Year

**Total Students :** 49

### THE FOLLOWING ACTIVITIES WERE CARRIED OUT:

- 1. 11am -11:10am (Introduction speech by Dir. Dr. Sharadha Ramesh):** Mam addressing the guest and students about importance of detection leprosy among community people. Even she explained about routes of transmission of leprosy and detect the (NCD) i.e. Non Communicable disease.
- 2. 11:10am -12:30pm:** Mr. Vijay Pohowkande (Leprosy Supervisor) addressed students Power-Point presentation On “**ELIMINATION OF LEPROSY BY OCTOBER 2020**” **Theme of National leprosy eradication programme 2019.** He has given brief introduction about ratio of people affected with leprosy among country and state of Maharashtra.
- 3. TREATMENT-** Description about treatment in early era. The disease was treated only under dispensary but now the scenario is change, now treatment is even done under general hospital. The treatment is carried out in dispensary and general hospital in following way. Early Suspect, types of leprosy, treatment and involvement of community people like ASHA and other health worker.
- 4.** The treatment is in two ways i.e. Multi-bacillary and posy-bacillary around 2 to5% of population is susceptible for leprosy. And around 2 to 3% people have chances to get physical deformity said as per the current census. The sign and symptoms were discussed among the students. For **Multi-bacillary**, TAB- Rifampicin 600mg/per tab/month, TAB- Dapson 100mg/tab/month, TAB- Clofazamin 300mg/tab /month for 12months for infectious leprosy and for **Posy-bacillary** - TAB- Rifampicin 600mg/per tab/month, TAB- Dapson 100mg/tab/month, TAB- Clofazamin 300mg/tab /month for 6 months
- 5. SURVEY:** Even though as students how they are going to carry out home visit and make possible markings for evidence to record of susceptible cases. The following are the markings which health worker need to follow. ( L- leprosy Case, XL- locked house(serial number is not necessary for such houses), XR- Refused house, XV- out of 5, 3 members are examine and 2 are out of station they will not report till survey , XH- out of 5, 3 members are examine and 2 are not available at place they will examine later on. And about XL- they should visit before going to other area.
- 6. CONSULTATION:** It carried out in two form that is primarily in dispensary at Wadarwadi near Dongare hall Pune and for second opinion the consultation is done Sasoon general hospital, Pune in OPD NO 39. Even the lab Investigation is provided in Gaadikhana (Opp to Dagadusheth Ganapati Mandir, Shaniwarwada Pune.)

It was interactive session and an eye-opener for the student. After the lecture student were thankful and in positive attitude towards the leprosy awareness programme.

## **Leprosy Case Detection Program – Field work Report**

Leprosy Case detection Program field work started on 13 Sep 2019. 49 students reported on the day at Homi Bhabha centre Wadarwadi. The areas were allotted by the Supervisor. The following areas were allotted

1. Pandavnagar
2. Gulabwadi
3. Janta vasahat
4. Janwadi
5. Rugnalika mitra mandal
6. Malinagar
7. Rautwadi
8. PMC Building
9. PMC Chawl
10. Mahalenagar
11. Wadarwadi
12. Hirvi chawl
13. Lal chawl
14. Temple area
15. Police Chowki area
16. Akash Ganga

24 Teams were made made. Every Team has to cover 25 Houses. Total target given was 350 Houses. Data sheets were given by the field supervisors.

### **IMPACT**

As a part of the National program, the survey was done. The high risk cases are identified and informed to the state Leprosy department through the data sheets which were handed over to the officials on the last day. Marking of the houses done. The identified cases are taken over by the state Leprosy department for the treatment and follow up.
