PROPOSAL FOR World Tuberculosis Day 2021
THEME: THE CLOCK IS TICKING

Introduction:

Each year, we commemorate World Tuberculosis (TB) Day on March 24 to raise public awareness about the devastating health, social and economic consequences of TB, and to step up efforts to end the global TB epidemic. The date marks the day in 1882 when Dr Robert Koch announced that he had discovered the bacterium that causes TB, which opened the way towards diagnosing and curing this disease.

TB remains one of the world's deadliest infectious killers. Each day, nearly 4000 lose their lives to TB and close to 28,000 people fall ill with this preventable and curable disease. Global efforts to combat TB have saved an estimated 63 million lives since the year 2000.

The theme of World TB Day 2021 - 'The Clock is Ticking' –conveys the sense that the world is running out of time to act on the commitments to end TB made by global leaders. This is especially critical in the context of the COVID-19 pandemic that has put End TB progress at risk, and to ensure equitable access to prevention and care in line with WHO's drive towards achieving Universal Health Coverage.

The clock is ticking! A World TB Day campaign for action!
On World TB Day, WHO calls on everyone to keep the promise to:

- Accelerate the End TB Response to reach the targets set in Sustainable Development Goals, WHO End TB Strategy, the Moscow Declaration to End TB and the political declaration of the UN High-Level Meeting on TB.
- Diagnose and treat 40 million people with TB by 2022 including 3.5 million children and 1.5 million people with drug-resistant TB. This is in line with WHO's overall drive towards Universal Health Coverage and the WHO Director General's flagship initiative "Find. Treat. All. #EndTB" jointly with the Global Fund and Stop TB Partnership.
- Reach 30 million people with TB preventive treatment by 2022 so that those people most at risk receive TB preventive treatment, including 24 million household contacts of TB patients - 4 million of whom are children under 5 - and 6 million people living with HIV.

Service Learning Undertaking

Service learning is a form of experiential learning that links class room learning with community experiences and critical, reflective practices. Students in service learning will be engaged in projects and activities in the community.

Learning will occur through individual and collective critical reflection during working on project that will help students to integrate concrete experiences of real world with course/discipline concepts.

You must have received information that describes the project that you will be engaged in as well as the NGO/Organization's requirements and the learning outcomes of your service experience. As a participant in the Service Learning Programme you are required to read and sign the following student undertaking.

Signature

(Service learning In-charge of the Institute)

While participating in service learning I agree to abide by the following:

1. I understand the requirements and goals of service learning project in which I will participate. I know that the academic credit I receive is based on the participation and learning demonstrated through my project work, project report and presentation.
2. I will fulfill the minimum number of hours for service learning project.
3. I will attend orientation/training session organized by NGO/Organization for my project.
4. I will behave professionally while providing my service, including observance of established dress code.
5. While working on the project I will keep all sensitive information concerning people and organization confidential. I will not use or publish any information based on the data outside my project report.
6. I understand that failure to fulfill the expectations of the service learning project may result in a disciplinary action.

I, the undersigned have read and agree to the above.
