Introduction

School Health Programme is one of the important components of total Health Care Delivery System in the State, which helps in keeping close watch on the health of school going children. It is an admitted fact that the children are the future of the Nation. If the children are healthy, the Nation is bound to be strong. In the light of these observations, it was felt that the school health services should be developed as an integral part of the health care delivery system. Govt. of India have emphasized the importance of the medical check-up of Primary and secondary classes school going children.

Based on this we done following activities for school children

1. First Aid Training and donation of First Aid Kit to the School

Donated First Aid box with all the required items to the School teachers. Also taught them about first aid emergencies and management at school level.

2. School Health Check Up camp

55 school children are examined by students of SCON and found dental caries, eye sight problems in the children.

On this occasion Medical officer Dr. Tate has appreciated the students of SCON.
