Dear Ma'am,

Thanks for considering and reaching out to me.
I'm delighted, as I consider this as an opportunity to return the favor to my alma mata.

Write up:

I joined the First batch of B.Sc. Nursing program at Symbiosis College of Nursing in the year 2008. I came from a tier 3 city in south Maharashtra, the transition was certainly difficult, nonetheless warm and undivided support from the faculty, non-teaching staff and the head of the Institution always helped me feel at home.

Disciplined & rigorous curriculum combined with practical exposure in private as well as public sector healthcare institutions enabled me to gain substantial exposure to modern nursing practices, transforming a student Nurse to a competent, safe and effective Registered Nurse.

The biosphere SIU provides is unmatched. There is no limit for an individual to attain wealth of experience, friendships and self-guided development. These are assets money can't buy!

Thanks.

Best Regards,

Aditya
