

**MAMTA KUMARI SHUKLA**  
**POST BASIC. BSC NURSING (2012-2014)**

Throughout my 2 years of Post-Basic BSc Nursing at “Symbiosis College of Nursing”, I had countless opportunities to develop analytical skills, leadership and proactive thinking through various programs and events. I was taught the importance of work ethics, diligence and conduct when working as a team member.

I gained not only knowledge but learned life lessons that have helped shape my character. This has enabled me to adapt to any situation in which I find myself. Every opportunity that presents itself now gives me the chance to put the very best into all I do and I remain motivated despite limitations, aiming to leave any situation better than I found it, these attributes were the key reasons because of which I was able to get “**Best All Round Student**” (2012-2014).

As an alumni of the college I was given due weightage and successfully placed at ‘Symbiosis College of Nursing’ as “Tutor”. Big thanks to all my faculty members and friends for this amazing journey at Symbiosis. My sincere appreciation & gratitude to the faculty for their support and encouragement, this would not be possible without them.

“I joined Symbiosis College of Nursing after completing my post-graduation, working at Symbiosis College of Nursing Is truly interesting. There are no two days alike since the work is never boring. I love the diversity of the work force and the friendly feeling you have with the people you work directly with. The additional professional development opportunities are also available and I find these to be most productive. There is a real sense of pride to hear from people who have attended Symbiosis College of Nursing and how they loved their professors and this is just an added feeling working with institute where you have studied. I am truly grateful for the opportunity of being at Symbiosis College of Nursing.”
